I. INTRODUCTION

The CITY OF Newton has decided that the public good and public safety will be served by making all buildings in the City, whether public or private, as energy efficient as possible. The City has launched an initiative – “Newton Energy Savers” (NES) to leverage the existing MassSave program. The City seeks qualified consultants that can work within this initiative to provide opportunities for homeowners to improve the energy performance of their homes. The City understands the barriers that have prevented energy efficiency in urban housing, including high transaction costs and split incentives, and seeks a provided to apply an innovative approach to overcome these challenges and achieve substantial energy savings on a city-wide basis. NES is part of a larger effort to reduce greenhouse gas emissions throughout the City from all sources.

The City is issuing this Request For Qualifications (RFQ) for an energy management partner (EMP) to coordinate energy efficiency assessments and retrofits in 1-4 family residential buildings in Newton. The EMP will develop and implement a package of comprehensive energy efficiency retrofits, including insulation and heating systems. Such “packages” shall include design, implementation and installation of comprehensive energy efficiency measures. The EMP is expected to build on and fully utilize Massachusetts’ existing utility weatherization and energy efficiency programs. The foregoing are collectively referred to as the “Services”.

The EMP’s Services will be paid from the sale of energy efficiency equipment and services it sells to the energy consumers it serves. The City nonetheless has an interest in how and which EMP is selected as the City will, based on this RFQ, be recommending the EMP to its citizens. The City will not pay or provide funding to the EMP, but will actively co-sponsor the program with the EMP. The City will encourage eligible residents, landlords and tenants to participate in the program and install all energy efficiency measures that are economically beneficial. The City will work with the electric and gas utilities serving the City and with environmental organizations and other stakeholders to facilitate appropriate cobranding and coordination to increase the success of the program. The City will work with the EMP to seek other sources of assistance and any enhancements to utility and other programs that would improve the success of this campaign. The City will collaborate with the EMP in marketing the program.

By issuing this RFQ, it is the intent of the City to use a competitive sealed procurement process to the extent appropriate. The services sought are “energy related services” as that term has been defined in Northeast Energy Partners, LLC v. Mahar Regional School District, 462 Mass. 687 (2012), and are therefore exempt from Chapter 30B, M.G.L. c.30B, §1(b)(33). Depending on the EMP selected, this RFQ may also be exempt as a grant agreement under M. G. L. c.30B §2. So while the City is using a competitive process, it is not its intent to follow Chapter 30B, and the requirements and procedures of this procurement shall be as set forth in this RFQ and not in reference to any statute or regulation. The City reserves the right to amend or cancel the terms of the RFQ if it determines it is in the best interests of the City to do so.

Pursuant to the foregoing the City requests competitive sealed Statements of Qualification (SOQs) from qualified EMPs to provide energy consulting services to the citizens of Newton.

The agreement resulting from this RFQ (“EMP Agreement”) will have a term of one (1) year with two additional options of one year each, exercisable at the sole discretion of the City. The EMP Agreement will be subject to the City’s right to terminate without cause for convenience. In the event of termination the City shall have no obligation to the EMP. Any energy related services that are outside the Scope of Work shall be performed only pursuant to a separate written agreement between the City and the EMP.

It is understood and agreed that it shall be a material breach of any contract resulting from the request for the EMP to engage in any practice that violates any provisions of Massachusetts General Laws, Chapter 151B, relative to discrimination in the hiring,
discharge, compensation, or terms, conditions or privileges of employment because of race, color, religious creed, national origin, sex, age, or ancestry.
