

# Orienteering with Navigation Games

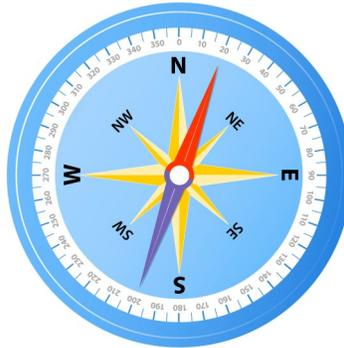

Saturdays October 17 - November 7, 2020

9:30 - 10:45 am

For children in grades 2 - 6

Outdoors at the Auburndale Cove

next to 104 West Pine St, Auburndale, MA 02466

Join Newton Parks & Recreation and Navigation Games for a 4 week program to develop orienteering and map reading skills. This immersive orienteering experience will develop skills through fun and engaging map navigation and scavenger hunt-like activities. Experience the outdoors in a way that enhances spatial awareness, positive feelings around the outdoors and promotes environmental stewardship. We will hold November 14th as a make up day if needed due to inclement weather.

# Program Policies For Health and Safety

1. Everyone will follow current guidelines for social distancing and face coverings during all of our programs. Please send a back up face covering with your child as well.
2. Participants will maintain social distancing if they arrive at the same time as another participant and will use face coverings in accordance with current guidelines.
3. Adults and siblings arriving with participants are also required to wear face coverings and maintain social distancing.
4. Each participant will use hand sanitizer before entering the program area and then go to a designated area. Face coverings will be required throughout the duration of the program as there may be times that staff or other participants may come within 6 feet of each other.
5. Every attempt will be made to provide instruction and assist a participant from a 6 foot distance but there may be times when a 6 foot distance can't be maintained.
6. Whenever possible, participants will use materials assigned to them throughout the class and limit shared materials. Shared materials will be cleaned by the instructor between uses.
7. Hand sanitizer will be available throughout the duration of the program.
8. Participants should use the bathroom at home before coming to the program and bring a filled water bottle. Please also dress for the weather. We will use a make up day of Saturday November 14th if one of our classes has to be cancelled due to the weather.
9. Participants will receive a confirmation email with specific drop off and pick up information for their program. People not signed up for a class will not be allowed to enter the programming area, but may use other areas that are still open to the public.
10. Parents of children should do a home health assessment each day to check for signs and symptoms of illness. Please do not bring your child if they are feeling sick, have had a fever, or have come into contact with someone that is sick.
11. All participants will need to be dropped off and picked up by an adult.
12. Participants will be required to be picked up when the program is over. Please be on time when picking up children. Excessive lateness will be cause for dismissal from the program.
13. Participants who are considered high risk should talk with a health care provider about whether this program is a safe option.
14. We will follow health department guidelines in the event that a participant in the program is diagnosed with Covid-19.
