A. **Statement of Purpose:**

Whereas there exists conclusive evidence that tobacco smoking causes cancer, respiratory and cardiac diseases, negative birth outcomes, irritations to the eyes, nose and throat\(^1\);

Whereas the U.S. Department of Health and Human Services has concluded that nicotine is as addictive as cocaine or heroin\(^2\) and the Surgeon General found that nicotine exposure during adolescence, a critical window for brain development, may have lasting adverse consequences for brain development,\(^3\) and that it is addiction to nicotine that keeps youth smoking past adolescence\(^4\);

Whereas a Federal District Court found that Phillip Morris, RJ Reynolds and other leading cigarette manufacturers “spent billions of dollars every year on their marketing activities in order to encourage young people to try and then continue purchasing their cigarette products in order to provide the replacement smokers they need to survive” and that these companies were likely to continue targeting underage smokers\(^5\);

Whereas 18.1 percent of current smokers aged <18 years reported that they *usually* directly purchased their cigarettes from stores (i.e. convenience store, supermarket, or discount store) or gas stations, and among 11\(^{th}\) grade males this rate was nearly 30 percent\(^6\);

Whereas the Surgeon General found that exposure to tobacco marketing in stores and price discounting increase youth smoking\(^7\);

Whereas the Massachusetts Supreme Judicial Court has held that “. . . [t]he right to engage in business must yield to the paramount right of government to protect the public health by any rational means”\(^8\).

Now, therefore it is the intention of the Newton Health and Human Services Department to regulate the sale of Tobacco Products and Nicotine Delivery Products and to protect the health and welfare of the general public in the City of Newton from the harmful effects of smoking and secondhand smoke.
