

Conservation Commission Wetland Application Narrative –

We would like to add a Bulkhead to our foundation that currently has a 5' entry door on the South Side of the house next to the Southeast corner of the house. After the installation of the Bulkhead, we would grade the property away from our basement door to be at the same level as our neighbor at 178 Quinobequin Road at the property line. The Bulkhead and grading will not effect any trees or bushes on the property and we will replant grass seed on the newly graded surface.

The main reason for this Bulkhead project is to alleviate basement flooding.

Thank you for considering the approval of this request.

Jeff Tumpowsky,  
Homeowner at 164 Quinobequin Rd
