At a town meeting held march 7. 1853.
"Marshall S. Rice, Andrew H. Ward, and William Jackson, were chosen a Committee with instructions to copy the town Records of Births, Marriages and Deaths; and to take such other measures for their preservation as they may judge expedient."

In compliance with the foregoing instruction the Committee, upon examination of those records found them to be contained in two books — the second commencing in 1820. is in a good state of preservation and now in use and being but partly filled, will suffice for the town's use many years to come; the Committee therefore have not procured that book to be copied; the first book has been copied into this, with some additions, as hereafter mentioned. — The first book of records does not commence until many years after the first settlement within the limits of Newton, being then a part of Cambridge; the births, marriages and deaths among its people during that period and with few exceptions, until near the time of its emancipation from Cambridge, were not recorded here, but in that town.

The first person who owned land within the limits of this town, and resided upon it, was Thomas Mayhew, who was here as early as 1635. He sold out in 1638. and removed to Martha's Vineyard. — The first who made a permanent settlement here, was Dea. John Jackson; he bought of Miles Ives of Watertown in 1639. and continued here through life, and his descendants after him. From that time until 1678. a period of nearly forty years, there are no births marriages or deaths on our records.

For the purpose of having a record from the first permanent settlement of the town, the Committee have obtained from the records of Suffolk and Middlesex Counties, the names, births,

marriages and deaths of all the settlers here, that were recorded there, before Newton records were commenced and have had them entered in this book. —

In many instances whole families that have lived and died here, are omitted in our old records, and more recently a portion only of some families are recorded. In some cases the record of the death of a person here is found, who had his birth here, but not recorded; and vice versa. The Committee have filled up these omissions as far as practicable, in the time they have had. From other sources of information that have come to their knowledge; more might no doubt be obtained from a thorough examination of the monuments in our several burying grounds.

The Committee have added to the records of births a large number of names obtained from Wills, Deeds, &c. in the Suffolk and Middlesex Registries, by Mr. Francis Jackson. The date of the births of such in most instances have not been found.

Some families and individuals of families that were born here, but removed to other towns, have been added to this copy of the town records. — It is proper to remark that some part of the early records of the town, are written in a hand not easily read at the present day, besides being nearly obliterated by time and use, whereby there has been much liability to error in copying.

Messrs. Francis Jackson, William Jackson and Andrew H. Ward, had each copied those records, sometime since — their copies have been compared with each other and with the town records, and although this copy may not be entirely free from errors, the Committee believe it as nearly so as it has been practicable to make it. — They have also procured the old record to be rebound for preservation and future examination and comparison with this copy. —

As most examinations of old records are made with a view to tracing Family genealogies, the Committee in order to facilitate such researches and to secure the better preservation of the records from injury by the use of them, have arranged the births under the parental head of the Family to which they belong, so that parents and their children are brought together in the records. —

In regard to most of the early settlers, they have arranged the Families alphabetically in the order of their names. — In the Marriage records the places of residence of the parties have not been copied — persons desiring that information are referred to the original book of records. — —

The records of Births are upon the first 200 pages of this book; — Marriages from 202 to 284: Deaths, from 295 to 360. —

Probably the Town Books do not contain a record of more than half those who have died in the Town since its first settlement — a record of Deaths was kept by William Hyde, from 1732. to 1748. — so much of that record as was not on the Town Books, may be seen upon this, on pages, 310. 311, & 312. A similar record was kept by Mr. Jonas Stone, from the year 1786. and subsequently by Mr. Elijah Stone; — such part of these as are not on the Town Books, are inserted in this book after those of the Town Record, in alphabetical order, and from page ~~2~~ 3 47 to ~~2~~ 3 54.
